

Ciel O QUEL DOMMAGE

Technical rider of Ma Tache

General Information

Duration of performance : 50 min..

Duration of set up : about 5 hours before the start of the show, if we can need the reinforcement of technicians, for the sound, light, and a stagehand.

Load out time: 1h30

Possible number of representations per day : 3

Break time between performances : at least 1h

Number of people on tour: 3 (2 actresses and a light operator)

Gauge: 300

Transport :

We come with a van . Please provide a parking space near the venue, for all the time our team is on site.

Establishment:

We can play in the following minimum dimensions.

Opening to the frame: 6m.

Width of the stage: 8 m (with wings).

Depth: 7.5 m. Minimum 6 m.

Height under pipes: 4 m. At least 3.4 m.

Floor: black dance floor or black floor.

We need black curtains, hanged at the Italian style on each side of the set. If this is not possible please contact our technical manager to find the best solution.

Important notes:

1) It is necessary to prevent any airflow during the show (open window, air conditioning, heating, ventilation etc.).

2) We light a birthday candle on stage.

3) We need two chairs:

Lights:

As usual, thank you to contact our director to be able to better adapt our show to the constraints of your room.

Requested material:

-Blocks of power: 30 dimmers 2 kw with DMX protocol.

Notes: Attention, we have 12 channels on the floor; it is sometimes necessary to provide charges for 4 of them.

It is always possible to couple channels, thank you to contact us if you do not have 30 dimmers in your theater.

-A light console with 20 subs.

-10 pc's 1000 or 500 W.

-4 profiles (type 614: 16° -> 35°) on stand or ladder (at head height).

-1 profile (type 613: 28°-> 54°); LEE 124.

-3 pars cp 62; the gels are to be chosen by your crew to create a party, as a nightclub effect.

Material provided by the Company

-4 ground projectors.

-4 LED desk lamps.

Sound :

Requested material:

-A console 4 in / 4 out.

-1 PA stereo on the front.

-2 independent wedges.

-1 mini-jack cable for a computer brought by Company.

Dismantling:

Disassembly and loading take place at the end of the last performance.

Thank you for providing help.

If certain points of the technical sheet seem difficult to respect, do not hesitate to contact us to find an arrangement together.

Hope to meet you !
